Premarital Counseling Program

Guidelines:

1. Good communication is key to a successful relationship. These questions can help you determine your compatibility, encourage open discussion, and tackle tough issues before they become emotionally charged. There is no right or wrong; your answers are a guide for the relationship you want.
2. Don't argue if your answer is different from your partners. Hear what is being said and absorb it. If you reach an impasse, take a break and come back to the question later. You might not want to address certain issues; think through why. Don't rush. Pick a question, discuss it and when you exhaust the topic move on to the next question. You may cover several sections at once or spread them out over time. Have fun!
3. Spend **at least 4 hours** discussing these questions, 60 minutes per section. You do not have to write out your answers. Just talk to each other. This is a DIY course and it is on your honor. **If you've already talked through some of these questions, you may count that time toward completion.** Communication is the key to a successful relationship. The point is to communicate.

If you will always talk to each other about what you're thinking and feeling, there's no difficulty you can't defeat, no obstacle you can't overcome and no challenge you can't change.

Don't let preconceived judgments get in the way of exploring what you feel. You may want to go back to previously discussed topics. Your ideas, attitudes, and opinions may change. These are the tools you will use for the rest of your life. Just keep talking to each other.

Section 1 Work (60 Minutes of discussion - Seek to Understand your partner, first)
